

Get the best TV, Internet and Phone
no matter where you live!

Jupiter 2

Affordable, Always-On High Speed Internet. Jupiter 2 is the most powerful & economical high-speed satellite Internet solution available today, with Internet speeds of up to 25 Mbps down and 4 Mbps up.

Ideal for use in rural home or small office, where terrestrial broadband Internet is not available. Satellite Internet is always-on and does not require phone lines or cellular service to connect. Jupiter 2 is available in most parts of Canada - as long as the satellite has a clear view of the southern sky.
